

Foam Laminating Machine

Main Usage:

This machine adopts Gluing Laminating Type which is used for Foam Sheets & Non-Woven Fabric Laminating, Foam Sheets & PVC Sheets Laminating, PVC Sheets & Non-Woven Fabric Laminating etc.

Specification:

Electric Heating Tube(Stainless Steel):	φ 60*1690mm	Gluing Wheel Size:	Dia 219mm*W1830mm
Laminating Width:	W1500 ~ W1800mm	Glue Groove Type:	Single Groove:
Output:	1 ~ 60 Yards/min	Auto Edge Checking + Auto Rolls System:	One Set
Heating Tube Power:	1.5kw*18pcs(Total: 27kw)	Control Type:	Automatic Electric Control
Heating Tube Control Type:	Bi-Motor Control	Machine N.W.:	3500kg
Heating Roller Size:	Dia 1500*W1830mm	Total Motor Power:	32kw
Laminating Thickness Range:	2mm ~ 30mm	Floor Space:	L6800mm*W2200mm*H2600mm
